AF 07210 (January 2005)
UNITED STATES AIR FORCE CCAFS/PAFB

SECTION 07210

BUILDING INSULATION
01/05

PART 1 GENERAL

NOTE: This specification is to provide inserts into
the NASA Section 07210 BUILDING INSULATION calling
out affirmative procurement requirements for
building insulation.

1.1 SUBMITTALS

NOTE: If SD-03 Product Data already exist in the
Submittal Article, add the submittal items below to
the end of SD-03 Product Data.

If SD-03 Product Data does not exist in the
Submittal Article, insert the entire paragraph
below, including SD-03 Product Data.

SD-03 Product Data

Manufacturer's data shall be submitted indicating percentage of
recycle material in building insulation to verify affirmative
procurement compliance.

Total weight and volume quantities of building insulation with
recycle material shall be submitted.

PART 2 PRODUCTS

NOTE: Insert the following paragraphs into Subpart
2.1 to describe affirmative procurement requirements.

2.1 THERMAL-INSULATION MATERIALS

NOTE: If the Architect/Engineer determines that use
of certain materials meeting the CPG content
standards and guidelines would result in inadequate
competition, do not meet quality/performance
specifications, are available at an unreasonable
price or are not available within a reasonable time
frame, the Architect/Engineer may submit to
Contracting Officer a written justification and

**supporting documentation for not procuring
designated items containing recovered material using
the Recovered Materials Determination Form.**

Building insulation materials are listed in the EPA's Comprehensive Procurement Guidelines (CPG) (<http://www.epa.gov/cpg/>).

For informational purposes, a list of known sources for thermal-insulation materials using recycled material is provided in the EPA/CPG Supplier database at http://www.ergweb2.com/cpg4review/user/cpg_search.cfm.

Note that the Contractor is not limited to these sources. A product meeting CPG recycle requirements from other sources may be submitted for the Government's approval.

Contractor shall submit recycled material content data for building insulation indicating compliance with affirmative procurement.

Contractor shall submit total weight and volume quantities of building insulation with recycle material.

PART 3 EXECUTION

Not Used
